

Hank Duhaime

Senior Product Design Prototyper

Seattle, WA · hello.hank.d@gmail.com · [linkedin.com/in/henryduhaime](https://www.linkedin.com/in/henryduhaime) · hankduhaime.com

summary

A creative technologist with 8+ years of experience designing playful, embodied interactions

experience

Senior Product Design Prototyper · Meta Reality Labs Research · Redmond, WA · Jan 2022 – Mar 2026

contract to Jan 2024, full-time from Feb 2024

- Developed novel interaction concepts for nascent R&D technologies across AR/VR, haptics, wearables, AI, and robotics
- Prototyped low- and high-fidelity experiences to support design exploration, value assessment, executive demos, and conferences
- Collaborated with cross-functional partners to document research insights, develop code libraries, and facilitate design workshops

Experience Designer L1 · Publicis Sapient · Seattle, WA · Oct 2020 – Jan 2022

- Designed digital products for Mercedes-Benz USA through the creation of sketches, wireframes, interaction flows, and click-through prototypes
- Generated prototype-driven insights for digital business transformation concepts within a specialized rapid innovation lab

UX Designer / Engineer · SpellBound AR · Ann Arbor, MI · Jul – Oct 2020 & Jun 2016 – Jul 2018

- Designed, programmed, and shipped five mobile AR games used in 20+ pediatric hospitals to improve the patient experience
- Patented a novel AR practice of leveraging multiple visual targets to create scalable, room-filling content

Graduate Teaching Assistant · Georgia Tech College of Design · Atlanta, GA · Aug 2019 – May 2020

- Mentored graduate students through the process of conceiving, designing, and fabricating interactive physical installations
- Lectured on physical computing topics such as Arduino, addressable LEDs, and general hardware troubleshooting

Experience Design Intern · Second Story Interactive Studios · Atlanta, GA · Jun – Aug 2019

- Developed flow diagrams, videos, and software prototypes to represent interactive physical installations to prospective clients
- Conducted two rapid prototyping explorations to evaluate emergent physical sensing technologies for future client work

Mixed Reality Research Assistant · IMAGINE Lab · Atlanta, GA · Jan – May 2019

- Prototyped four mixed-reality interactions in Unity to support research on immersive visualization technology for city planning

skills

Digital Prototyping — AI (Claude Code / ChatGPT), Games, AR, and VR (Unity / Unreal), Generative art (Processing), Scripting (Python / C#), Web (HTML / CSS / JS)

Physical Prototyping — 3D printing, CAD (Fusion 360), Laser cutting, Model making (foam / cardboard), Physical computing (Arduino)

UX Design — Interaction flows and journey maps, Wireframing (Figma), Workshops (Figjam), Pitching and presenting, Video editing (Premiere)

education

MS Human-Computer Interaction · Georgia Institute of Technology · Atlanta, GA

BSE Computer Science · University of Michigan · Ann Arbor, MI

publications & patents

Enabling Immersive, Fantastical Interactions in Virtual Reality Using EMG and Haptics CHI Workshop, 2025

Explorations of Wrist Haptic Feedback for AR/VR Interactions with Tasbi UIST Demo, 2022

Safecracker: Exploring Immersion Through Audio and Object-Based Controllers CHI Student Games (1st Place), 2020

System and Method for Delivering Augmented Reality Using Scalable Frames to Pre-Existing Media Utility Patent, 2017
